## COVER LETTER / WELCOME NOTE

*"Building the Future with Strength, Precision, and Pride."*

### Welcome to Al-Ramh Al-Thageb Contracting Company (RTC) -

one of the Kingdom of Saudi Arabia's distinguished contracting and engineering organizations, founded on integrity, driven by innovation, and committed to excellence. Since its establishment, RTC has stood as a symbol of national capability and industrial strength, executing complex engineering and construction projects that serve the Kingdom's growth and the aspirations of Vision 2030.

At RTC, our foundation is built upon a simple principle — to deliver more than structures; to build enduring value. We view every project as a partnership of trust between our company, our clients, and our nation. Our achievements reflect not just engineering mastery but also a commitment to ethics, safety, and sustainability - ensuring that what we build today stands strong for generations to come.

Our success is the result of vision, leadership, and the dedication of our people - a workforce that embodies professionalism, skill, and loyalty to Saudi Arabia's growth journey. Through our experience, advanced technologies, and high standards of quality and safety, RTC continues to lead projects that shape cities, empower industries, and support the Kingdom's economic transformation.

On behalf of the RTC team, we extend our appreciation to our clients, partners, and stakeholders who have trusted our expertise and shared our vision. We welcome you to explore our profile - a reflection of our journey, our values, and our unwavering dedication to building the future of Saudi Arabia.

## Corporate Identity & Vision

*"Driven by Vision, Defined by Excellence."*

The identity of **Al-Ramh Al-Thageb Contracting Company (RTC)** represents the modern spirit of Saudi Arabia — ambitious, resilient, and innovative. The company's name, meaning "The Piercing Spear," reflects our determination to overcome challenges and our ability to deliver excellence in every project we undertake. Our corporate identity is more than a logo or a name — it is the embodiment of strength, discipline, and national pride.

Every element of our identity — from our visual design to our corporate philosophy — communicates professionalism, precision, and a commitment to progress. The color palette of our brand represents confidence and reliability, while our structure mirrors the engineering precision we bring to every project.

At RTC, our vision extends beyond business growth — it is about contributing to the Kingdom's transformation into a global industrial powerhouse. We are committed to building not only infrastructure but also legacies of innovation, safety, and sustainability. Our goal is to be recognized as a symbol of engineering distinction and national progress.

This identity fuels our every action and guides our people to achieve more, innovate better, and build stronger. RTC is not just a company — it is a statement of pride, quality, and purpose that stands for the future of Saudi Arabia.

### Executive Summary

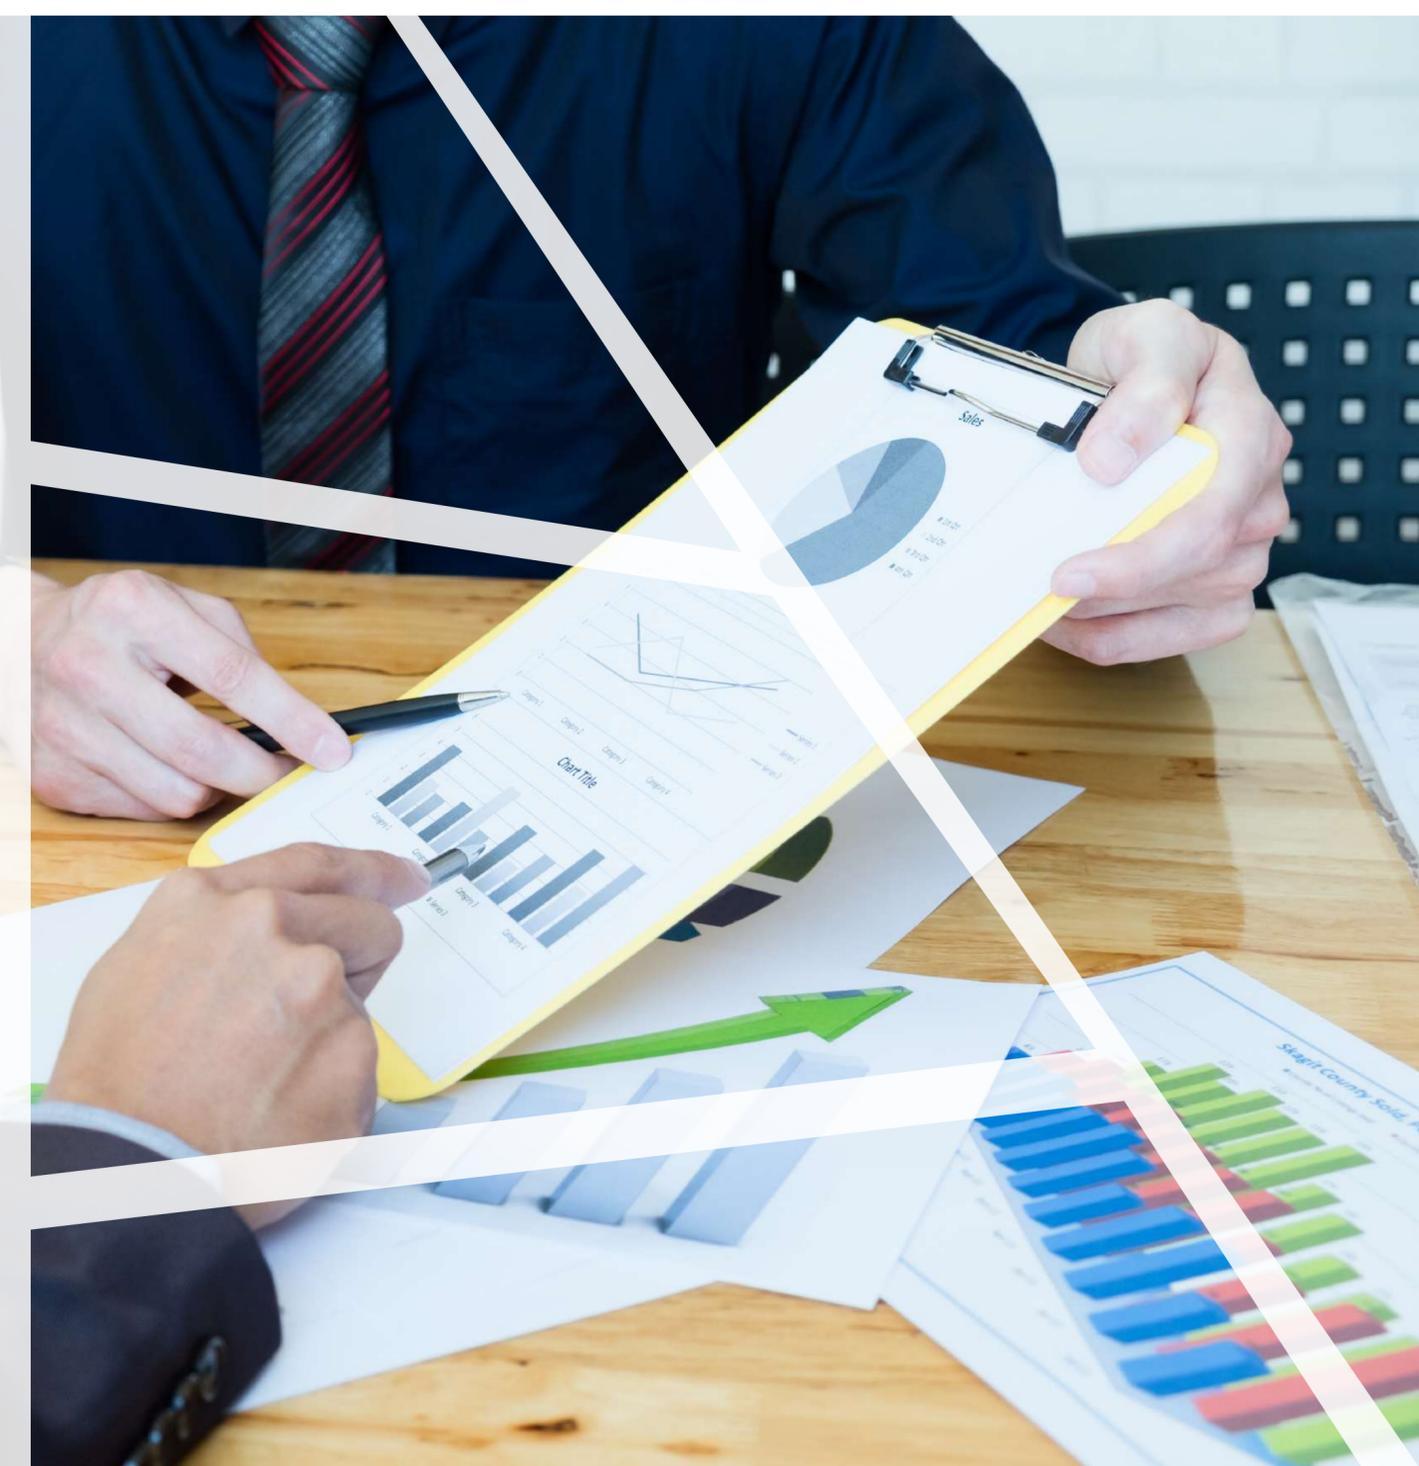

*"Engineering the Future, Delivering Excellence."*

**Al-Ramh Al-Thageb Contracting Company (RTC)** is a Saudi-based powerhouse providing end-to-end solutions in Engineering, Procurement, and Construction (EPC). Established in Ras Tanura, RTC has grown into a diversified contracting enterprise recognized for its technical depth, project execution capability, and reliability. The company plays an integral role in Saudi Arabia's infrastructure, industrial, and energy development — contributing directly to the realization of Vision 2030.

RTC's core strength lies in its multidisciplinary expertise and its capacity to manage large-scale projects with precision, safety, and efficiency. Our portfolio spans the oil & gas, petrochemical, power, water, civil infrastructure, and industrial sectors. Each project we execute reflects the company's commitment to quality, innovation, and timely delivery.

As a growing national enterprise, RTC integrates international best practices with Saudi values — blending advanced project management tools, world-class safety systems, and local knowledge. Our skilled workforce, supported by modern equipment and digital monitoring, ensures that every client's expectations are not only met but exceeded.

The Executive Management at RTC drives continuous innovation, operational discipline, and customer satisfaction. Our strategy focuses on long-term sustainability, workforce empowerment, and technology-driven excellence. With a proud Saudi identity and global ambition, RTC is not only building projects — it is building the Kingdom's future.

## Message from the CEO

*"Leadership Rooted in Integrity, Vision, and Progress."*

It gives me great pride to lead **Al-Ramh Al-Thageb Contracting Company (RTC)**, an organization that represents the values of hard work, integrity, and national pride. From our beginnings in the Eastern Province, we have evolved into one of Saudi Arabia's most trusted and respected contracting companies — delivering industrial, civil, and infrastructure projects that reflect precision, reliability, and commitment.

Our success is built upon people — the engineers, supervisors, and technicians who give life to our vision and ensure excellence in every task. Their dedication and professionalism are the driving forces behind RTC's growth. Together, we uphold a culture that values quality, safety, and continuous improvement, ensuring that each project we deliver contributes meaningfully to the Kingdom's future.

At RTC, we believe that construction is more than building — it is nation-building. Every project we execute carries a sense of responsibility toward our clients, our communities, and our country. We measure our success not by scale, but by the trust and satisfaction we earn. As we continue to grow, our mission remains clear: to build with integrity, to lead with vision, and to deliver excellence that endures.

**- Mr. Nasser Al-Yami**  
Chief Executive Officer

## RTC Company Overview

*"Engineering Excellence, Building the Nation."*

### Al-Ramh Al-Thageb Contracting Company (RTC)

is a Saudi-owned, multidisciplinary contracting enterprise providing comprehensive solutions in engineering, procurement, and construction. Established in Ras Tanura, Eastern Province, RTC has become a major contributor to the Kingdom's industrial and infrastructure advancement, trusted by public and private-sector clients for its technical capability, quality performance, and consistent reliability.

RTC's structure is built around efficiency and integration. Our specialized divisions - Civil, Mechanical, Electrical, Instrumentation, HVAC, and Industrial Services - work together under one vision to deliver projects on schedule, within budget, and with uncompromising safety. This synergy allows RTC to manage large-scale, complex assignments while maintaining precise quality control.

Beyond construction, RTC provides full project lifecycle services - from initial concept and design to commissioning and maintenance - using advanced project-management systems, digital monitoring, and modern equipment. Our goal is to transform engineering challenges into successful, sustainable solutions that empower Saudi industry and infrastructure.

Today, RTC stands as a symbol of reliability and performance - a partner that clients depend on to deliver results, create value, and contribute to national progress.

RTC's reputation is anchored in its core values — the principles that guide every project and define every relationship :

**Teamwork** : We succeed together — collaboration across departments and with clients drives our progress.

**Integrity** : We act with honesty, fairness, and transparency, ensuring that every decision strengthens trust with our clients and partners.

**Innovation** : RTC embraces emerging technologies and modern methodologies that enhance performance and sustainability.

**Safety** : The safety of our workforce and the communities around us is non-negotiable. Zero-incident culture is embedded in every site and operation.

**Quality** : Each project reflects our pursuit of perfection; we build not just to meet standards but to set them.

**Client Focus** : Client satisfaction defines success. Our partnerships are long-term and based on consistent excellence.

These values are the foundation of RTC's brand promise — to deliver every project with professionalism, pride, and purpose.

## Saudization & Human Capital Development

*"Empowering Saudis, Strengthening the Nation."*

At Al-Ramh Al-Thageb Contracting Company (RTC), we believe that the future of our company is inseparable from the future of Saudi Arabia. Our strongest investment is in our people — the men and women who carry our mission forward. RTC proudly supports the Kingdom's Vision 2030 by developing, empowering, and integrating Saudi nationals across all technical and managerial levels.

Our Saudization strategy is built on a comprehensive approach that combines education, training, mentorship, and career growth. We partner with leading technical institutes, training academies, and universities to identify talented Saudi youth and equip them with the skills necessary for success in the contracting and engineering sectors.

Through structured development programs, RTC provides continuous learning opportunities, professional certifications, and leadership pathways that ensure our employees grow alongside the company. Each Saudi team member is trained not only in technical competence but also in the company's culture of integrity, safety, and innovation.

Our commitment to Saudization goes beyond compliance — it is a source of pride. By creating jobs, transferring knowledge, and fostering leadership, RTC contributes directly to the national objective of building a skilled, competitive Saudi workforce.

## Career & Workforce Excellence

*"People Are the Power Behind Every Success."*

The true strength of RTC lies in its people. Behind every structure we build and every project we deliver is a dedicated workforce that embodies commitment, expertise, and professionalism. RTC values its employees as its most important asset — the driving force behind our continued success and reputation.

We foster a work culture built on respect, teamwork, innovation, and accountability. RTC's employees operate in an environment that promotes growth, safety, and professional fulfillment. Through advanced training, continuous evaluation, and recognition programs, we ensure that every member of our team feels valued and empowered to excel.

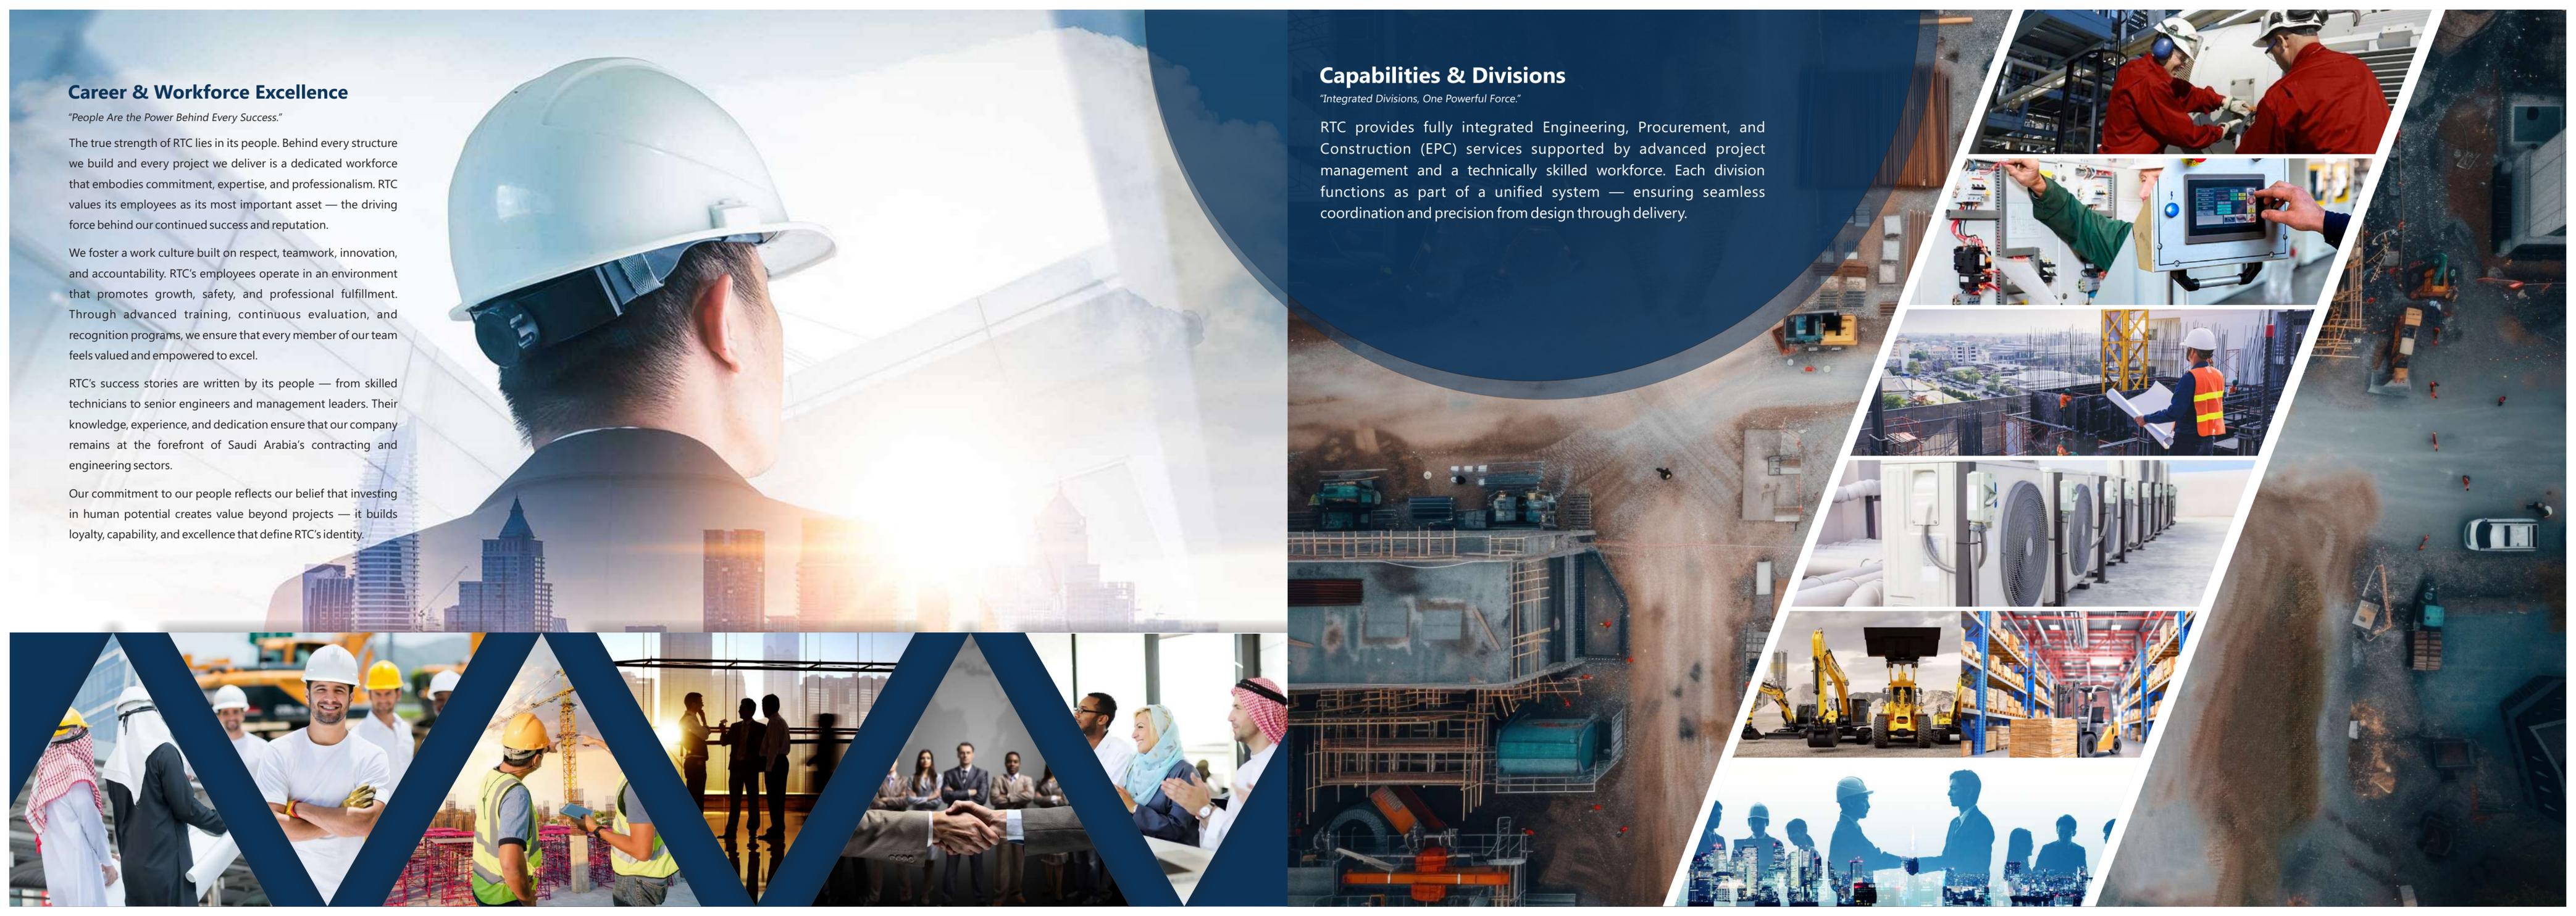

RTC's success stories are written by its people — from skilled technicians to senior engineers and management leaders. Their knowledge, experience, and dedication ensure that our company remains at the forefront of Saudi Arabia's contracting and engineering sectors.

Our commitment to our people reflects our belief that investing in human potential creates value beyond projects — it builds loyalty, capability, and excellence that define RTC's identity.

## Capabilities & Divisions

*"Integrated Divisions, One Powerful Force."*

RTC provides fully integrated Engineering, Procurement, and Construction (EPC) services supported by advanced project management and a technically skilled workforce. Each division functions as part of a unified system — ensuring seamless coordination and precision from design through delivery.

### EPC CONTRACTING (Civil, Mechanical & Electrical)

RTC delivers complete Engineering, Procurement & Construction (EPC) solutions. We manage the entire project lifecycle — from design and material procurement to execution, testing, and commissioning.

**Civil Works :** Industrial foundations, concrete works, road construction, and building development.

**Mechanical Works :** Piping, steel structure fabrication, equipment installation, plant modification work.

**Electrical Works :** Complete electrical installation including cable pulling, transformers, power panels, and control systems.

Engineering the future with precision.

# HVAC Maintenance Services

"Reliability in Every Temperature."

RTC (Al-Ramh Al-Thageb Contracting Company) is highly specialized in delivering comprehensive HVAC maintenance and installation services for industrial, commercial, and critical-facility environments — particularly within Oil & Gas, Petrochemical, Industrial Plants, and Government Infrastructure.

## We provide:

- Long-term and short-term HVAC maintenance contracts
- Preventive & corrective HVAC maintenance
- Emergency breakdown response & troubleshooting
- Installation, replacement & commissioning of HVAC systems
- DDC/BMS system troubleshooting and calibration
- Annual service contracts for buildings and industrial facilities
- Qualified & Certified Workforce

## RTC's HVAC team includes:

- Position / Skillset Credentials / Certification
- HVAC Technicians & Senior Technicians Saudi Aramco Approved
- DDC / BMS Technicians BMS / DDC Control Trained & Certified
- Brazing Technicians EHR & Brazing Certified
- Work Permit Receivers (WPR) Saudi Aramco Approved
- HVAC Engineers Industrial & Oil & Gas Experience
- CWQAP Certified Technicians Certified per Environmental Requirements
- All personnel are fully trained, experienced, and safety-compliant, capable of operating within high-risk and high-demand operational environments.

## Scope of HVAC Services

### We cover all types of HVAC work, including:

- Preventive maintenance plans (PM schedule management)
- Corrective repairs & troubleshooting
- HVAC equipment installation (PACU, DX systems, chillers, AHU, FCU, VRF, split units)
- Ducting fabrication, insulation, and modifications
- HVAC system testing, commissioning & performance optimization

## RTC is committed to delivering:

Zero downtime - maximum efficiency - long-lasting reliability.

## Scaffolding, Sandblasting & Industrial Coating

We protect and extend the life of industrial assets through certified surface preparation and coating systems.

**Scaffolding** : Safe and engineered scaffolding systems for construction and shutdowns.

**Sandblasting** : Rust and corrosion removal using advanced blasting techniques.

**Industrial Painting & Coating** : Protective epoxy, fireproofing, polyurethane and industrial coating systems.

*Protecting assets. Preserving value.*

## Tank Repair, Maintenance & Steel Work & Fabrication

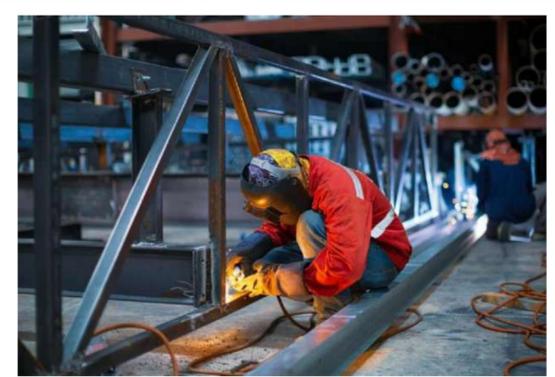

Tank rehabilitation and steel fabrication according to API Oil & Gas standards.

**Inspection :** Assessment of corrosion, leaks, and structural conditions.

**Repair & Fabrication :** HDPE liner replacement, steel fabrication, welding, patch work.

**Preventive Maintenance :** Routine service to improve performance and avoid failures.

*Integrity. Safety. Longevity.*

## Shutdown & Turnaround Projects

We execute shutdowns for industrial plants with minimum downtime and maximum safety.

**Planning :** Shutdown scheduling, manpower planning, and logistics.

**Execution :** Certified technicians and engineers.

**Startup Support :** Testing and commissioning.

*Time is critical. Quality is essential.*

### Equipment Rental & Heavy Machinery

We provide equipment with certified operators. Flatbed Trucks Boom Trucks Low Beds Water Tankers Forklifts Cranes Sucker Trucks Hydro Jetting Units

### Skilled Manpower Supply

RTC provides highly skilled and certified manpower for EPC projects, shutdowns, industrial maintenance, mechanical works, electrical works, and plant operations.

We supply: Engineers, Supervisors, Technicians, Welders, Fabricators, Scaffolders, Safety Officers, Painters, Blasters, Equipment Operators, and multi-skilled laborers based on client requirements.

All our manpower is qualified, certified, and approved to work inside Saudi Aramco facilities, including:

- CWAQP — Certified Work Authorization & Permit Program
- WPR — Work Permit Receiver (Aramco Approved)
- EHR — Electrical Hazard Recognition Certified
- Brazing Certification (HVAC / Piping)
- Certified Industrial Painter & Sandblaster
- Certified Welders (SMAW / GTAW / FCAW / MIG)

We ensure manpower is selected through a strict evaluation process and deployed only after meeting all HSE, quality, and project compliance requirements.

Certified People. Certified Performance.

RTC is structured into specialized divisions, each designed to deliver excellence within its domain while working seamlessly with other units. This integrated model enables RTC to manage complex projects efficiently, maintaining full control over quality, safety, and schedule. Our divisions include EPC, Civil & Structural Works, Mechanical & Pipeline Services, Electrical & Instrumentation, HVAC Systems, Equipment Rental & Logistics, Fabrication, and Industrial Maintenance , Shutdown projects.

The **Civil & Structural Division** focuses on building foundations, infrastructure, and industrial facilities using the latest construction technologies. The **Mechanical & Pipeline Division** executes piping fabrication, equipment erection, and process installations under strict QA/QC standards.

Our **Electrical & Instrumentation Division** provides complete power and control solutions, while the **HVAC Division** specializes in high-performance heating, ventilation, and cooling systems. The **Equipment Rental Division** supports all operations with modern, reliable machinery and skilled operators.

Each division reflects RTC's unified strength - integration, innovation, and execution. Together, they form the backbone of a company capable of managing projects of any scale with precision, safety, and unmatched quality.

AL-RAMH AL-THAGEB FOR CONTRACTING CO.

## Industries We Serve / Our Services

"Comprehensive Solutions for Every Sector."

RTC provides a complete spectrum of engineering and contracting services across multiple sectors — including oil and gas, petrochemical, infrastructure, energy, and industrial operations. Each service is tailored to meet client requirements with technical precision, cost efficiency, and operational safety. Our service portfolio defines our expertise, showcasing our ability to support projects from design to commissioning.

Our specialized services include: HVAC Maintenance, EPC Projects, Civil Works, Shutdown & Turnaround Projects, Electrical & Instrumentation, Equipment Rental & Logistics, Scaffolding & Tank Repair, Mechanical & Maintenance, Piping & Steel Structure, and Fabrication Works.

Every service division operates with independent expertise yet unified purpose — to provide end-to-end solutions that ensure technical reliability, project efficiency, and sustainable performance. By combining engineering excellence with modern technology, RTC delivers results that enhance Saudi Arabia's industrial and infrastructural landscape.

# RTC Ongoing Projects مشاريع الجارية لشركة RTC

"Building Excellence Every Day,"  
"بني التميز كل يوم."

Date	Project Name	Main contractor	Scope / Item Description	Discipline	Details / Work Description
Ongoing	HVAC Maintenance for SAGO	Hadi H. Al Hammam Contracting Co.	HVAC Maintenance LFC Contract	HVAC	Work Locations: 1) Hawiyah Gas Plant 2) Hawiyah NGL Plant, 3) Uthmaniyah Gas Plant 4) Shedgum Gas Plant, 5) Haradh gas plant (ARAMCO facilities)
Ongoing	Tanks Repairs & Maintenance Services – SASREF	Hadi H. Al Hammam Contracting Co.	Tank Repair & Maintenance Service	Mechanical	Complete tank liner repair and maintenance services under SASREF standards

## 1. HVAC Maintenance Contract - SAGO (Saudi Grains Organization)

RTC is executing a long-term HVAC maintenance contract covering multiple ARAMCO operational sites including **Hawiyah Gas Plant, Hawiyah NGL Plant, Uthmaniyah Gas Plant, and Shedgum Gas Plant, Haradh gas plant.**

The scope includes:

- Preventive maintenance and corrective repairs
- Emergency response for breakdowns
- Ducting modifications and HVAC unit replacement
- Operational support and monitoring

RTC deploys **certified HVAC technicians**, Aramco-approved work permit receivers, and ensures strict safety compliance to achieve **uninterrupted operations in high-demand industrial environments.**

Reliability in every temperature.

## 2. Tank Repair & Maintenance - SASREF Refinery

RTC is performing tank maintenance, rehabilitation, and **HDPE liner replacement** at SASREF Refinery.

Scope includes:

- Tank bottom steel rehabilitation
- Industrial sandblasting & surface preparation
- Supply of HDPE liner material and installation
- Quality control and inspection coordination with SASREF refinery teams

Work is performed under **strict refinery shutdown and HSE compliance**, ensuring safe execution and zero-incident operations.

Integrity delivered. Safety guaranteed.

## Quality, Health, Safety & Environment (QHSE)

"Safety First. Quality Always."

At **RTC**, we believe that quality, health, safety, and environmental care are not just policies but core values that define our operations. Our QHSE management system is built on prevention, responsibility, and continuous improvement. We operate under internationally certified frameworks such as ISO 9001, ISO 14001, and ISO 45001, ensuring consistent compliance with the highest global standards.

Our safety culture empowers every employee to take responsibility for their environment and co-workers. Regular training, audits, and on-site safety drills ensure a "zero-incident" workplace. We also emphasize environmental stewardship — reducing emissions, managing waste responsibly, and conserving energy in all our operations.

Quality and safety are embedded in our DNA — not because they are required, but because they are right. RTC's QHSE standards protect lives, safeguard assets, and ensure that every project we deliver meets expectations with excellence and integrity.

## RTC Clients & Strategic Partners

شركة تمكين العربية للتجارة والمقاولات  
TAMKEEN ARABIA COMPANY  
FOR TRADING & CONTRACTING

"Strong Partnerships, Stronger Results."

The foundation of **RTC's** growth lies in the trust and satisfaction of its clients and partners. We have built long-term relationships with some of the most prominent organizations in Saudi Arabia by consistently delivering projects that exceed expectations. Our commitment to collaboration and transparency ensures mutual success and lasting partnerships.

Our valued clients include **Saudi Aramco, SAMREF, Hadi H. Al Hammam Group**. These partnerships reflect our reputation for reliability, performance, and excellence. We are honored to work alongside companies that share our vision for quality and national development.

We view each client relationship as a partnership in progress. Together, we create value, drive innovation, and contribute to the Kingdom's continuous advancement.

## Corporate Growth & Future Outlook

*"Evolving Through Innovation, Leading Through Vision."*

The future of **RTC** is built on continuous innovation, strategic growth, and a commitment to sustainability. As Saudi Arabia advances toward Vision 2030, RTC aligns its roadmap with the Kingdom's development priorities - investing in people, technology, and infrastructure that will define the nation's next industrial era.

Our growth strategy focuses on expanding regional operations, adopting smart construction technologies, and strengthening partnerships with global engineering firms. We aim to become one of the top national EPC contractors known for reliability, innovation, and world-class project execution.

With solid foundations and visionary leadership, RTC continues to evolve into a symbol of modern Saudi industry — building not just projects, but the future of a nation driven by ambition, excellence, and progress.

## Thank You Note & Contact Information

*"Together, We Build the Future."*

Al-Ramh Al-Thageb Contracting Company (RTC) extends sincere appreciation to all clients, partners, and associates who have been part of our journey. Your trust, collaboration, and confidence have been the foundation of our success. As we continue to grow, our promise remains to deliver excellence, innovation, and value in every project we undertake.

Together, we look forward to new opportunities that strengthen our partnership and contribute to the Kingdom's ongoing transformation. Thank you for your continued confidence in RTC — a company built on integrity, performance, and national pride.
